

2/127 vacuolar lumen
39/567 obsolete extracellular region part
0/24 endoplasmic reticulum chaperone complex
0/57 nuclear pore
1/295 nuclear envelope
62/2533 endomembrane system
0/25 fusome
2/14 zymogen granule membrane
6/160 secretory granule membrane
34/1086 bounding membrane of organelle
3/21 zymogen granule
14/180 exocytic vesicle
16/289 transport vesicle
9/48 obsolete intrinsic component of synaptic vesicle membrane
19/585 vesicle membrane
9/117 transport vesicle membrane
9/72 exocytic vesicle membrane
8/56 cell body membrane
22/454 dendritic tree
9/57 neuron projection membrane
14/213 cell projection membrane
30/951 obsolete cell projection part
8/98 postsynaptic membrane
44/1120 obsolete neuron part
2/30 photoreceptor inner segment
18/365 apical part of cell
11/255 apical plasma membrane
33/642 plasma membrane region
12/179 basolateral plasma membrane
2/63 plasma membrane raft
6/89 external side of plasma membrane
114/2155 cell periphery
79/1256 obsolete plasma membrane part
52/715 obsolete intrinsic component of plasma membrane
17/327 cell surface
7/45 obsolete anchored component of membrane
81/1302 obsolete intrinsic component of membrane
3/142 cluster of actin-based cell projections
2/51 stereocilium bundle
3/63 extrinsic component of cytoplasmic side of plasma membrane
2/94 9+2 motile cilium
2/135 motile cilium
1/25 intraciliary transport particle
9/460 cilium
38/1328 cell projection
4/131 obsolete sperm part
3/15 sperm head
1/124 plasma membrane bounded cell projection cytoplasm
1/53 respirasome
6/473 mitochondrial envelope
0/30 respiratory chain complex I
10/685 obsolete mitochondrial part
2/189 mitochondrial protein-containing complex
1/5 respiratory chain complex II (succinate dehydrogenase)
3/336 organelle inner membrane
129/3490 membrane
46/1934 organelle membrane
1/90 inner mitochondrial membrane protein complex
104/2356 obsolete membrane part
0/9 mitochondrial respiratory chain complex III
2/145 obsolete mitochondrial membrane part
1/81 oxidoreductase complex
2/173 transporter complex
13/573 membrane protein complex
0/9 proton-transporting two-sector ATPase complex, proton-transporting domain
1/53 obsolete integral component of mitochondrial membrane
10/168 obsolete intrinsic component of organelle membrane
9/665 transferase complex
0/72 methyltransferase complex
0/36 Cajal body
30/2190 nucleoplasm
59/3446 membrane-enclosed lumen
9/734 obsolete nucleoplasm part
0/26 nuclear replication fork
0/7 replication fork protection complex
1/839 nuclear protein-containing complex
0/6 alpha DNA polymerase primase complex
1/74 replication fork
0/31 replisome
0/14 nuclear replisome
2/133 condensed chromosome
1/37 condensed chromosome, centromeric region
1/78 kinetochore
1/112 chromosome, centromeric region
0/13 outer kinetochore
6/686 chromosome
34/2508 intracellular non-membrane-bounded organelle
2/253 chromosomal region
2/73 condensed nuclear chromosome
3/349 nuclear chromosome
51/3783 nucleus
1/8 metaphase plate
0/20 obsolete DNA packaging complex
0/8 condensin complex
1/52 heterochromatin
3/391 protein-DNA complex
48/3300 protein-containing complex
1/178 ribonucleoprotein granule
0/10 chromatoid body
3/561 supramolecular complex
1/63 pole plasm
0/9 MCM complex
0/15 mitotic spindle midzone
0/46 spindle midzone
1/81 mitotic spindle
0/116 midbody
1/193 polymeric cytoskeletal fiber
1/345 supramolecular polymer
2/27 TRAPP complex
61/3069 cytosol
3/69 vesicle tethering complex
11/774 intracellular protein-containing complex
0/7 TORC1 complex
0/35 small-subunit processome
11/716 nucleolus
0/76 preribosome
2/669 ribonucleoprotein complex
0/55 small ribosomal subunit
1/31 rough endoplasmic reticulum membrane
